

Please Note: Parents are not allowed on the gym floor before, during or after the competitions. Please help us run a safe meet and remind them of this. As always there is **NO** flash photography before and during competition. If you have a Team Photographer they need to get prior approval for taking pictures on the floor and they must have a current USAG professional number. There will be **NO** exceptions. This is for the safety of our athletes and coaches. Thank you for your understanding.
